Worker Compensation Emergencies

Short and Long distance transfers

We are about growth as the company and we want to penetrate in avenues that we as people feel that we cannot reach. And that means any services that requires an ambulance we are available 24/7 to assist

A LITTLE BIT ABOUT US

Kwantu Batho Emergency Medical Services (PTY)/LTD was established in 2016, it was formed by Mduduzi Cele as managing member that wanted to bridge the gap between the government emergency services and the private emergency services running parallel in helping out with the emergency services and curb the unemployment in our area.

With the experience that he has gained working for bigger brands the likes of Department of Health Free State, Eastern Cape and Gauteng. He opted it was a good time to open his own service

Our Vision

Is to see the brand Kwantu Batho Emergency Medical Services grows and competing with bigger brands in giving the excellent service in the emergency environment. We also are aiming at opening up other branches in neighboring provinces and giving a crack in the mining sector.

Mision

Our biggest mission is to grow in this industry and we want to see ourselves in the next 5 years owning a fleet of ambulances, so that we can hire emergency qualified youth in our area to get jobs and not just any jobs but sustainable jobs

Inter-hospital transfers

Domestic and Road Accident Medical Emergencies

Planned Patient Transfers

Our Turn Around Times
